Chocolate Oats

- 1 flat tsp or ½ tsp of cocoa powder
- ½ tsp sugar

Fruity oats

- 3) Pour ½ tablespoon oil onto frying pan over medium heat on the stove.

- 4) Pour 1 tablespoon of mixture at a time onto a frying pan and cook for 1 minute on each side.

Tip: This recipe is heart healthy  because it uses no refined carbohydrates like flour and sugar. It is also rich in high biological value proteins! To make this recipe even healthier, use canola oil instead of sunflower oil.

Feel free to add extra fruits like berries.

You can also add fibre to this recipe by adding seeds to the batter.

TOAST 2 WAYS

Spicy chicken livers

Serving: 2-4

Ingredients

- 1 teaspoon crushed garlic and ginger
- 1 chopped chilli (optional)
- 2 tablespoons vegetable oil
- 1 can chopped tomato
- 250g chicken livers, defrosted.
- 2-4 Brown bread slices
- Fresh parsley herbs, for garnish

Tip: Livers are a source of iron! To increase absorption, drink some orange juice.

Remember to not have dairy and iron foods at the same time because absorption will be limited. Wait 2 hours between meals.

Method

- 1) In a pan over medium heat, fry garlic, ginger and chilli until soft. Add tomatoes and cook for 10-15 minutes.

- 2) Add chicken livers to pan and cook for 2-5 minutes (depending on your desired texture). Once finished, take off heat.

- 3) To serve, spoon chicken livers on to toasted bread and add fresh herbs as garnish.

Avocado, Eggs and Tomato

Servings: Ingredients

- 1 boiled egg, sliced
- 500ml water
- 1 medium avocado or cottage cheese
- 1 teaspoon lemon juice
- 1 tomato, sliced
- ½ teaspoon salt & pepper
- 2 slices of brown bread

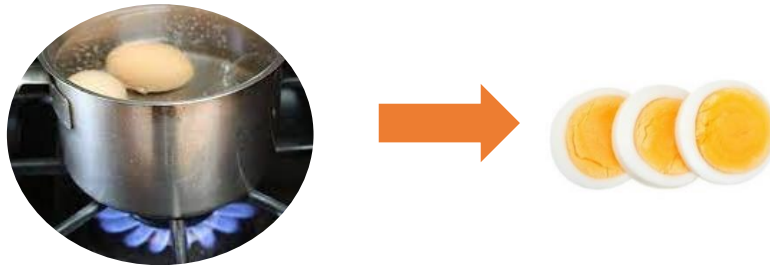

Tip: Avocado is a natural source of healthy fats! So, there is no need to fry the eggs and add more oil to the food.

When avocado is not available, buy medium or low-fat cottage cheese

Remember to buy avocado from street vendors and close store because it is cheaper

Method

- 1) In a pot, boil the egg for 5-10 minutes (Depending on how well done you want it to be). Let it cool and slice. Alternatively: make scrambled egg or fry the egg.

- 2) Half the avocado and take out the pit. Scoop out the flesh into a bowl, add lemon juice and mash to chunky consistency. Alternatively: slice the avocado or use cottage cheese.

- 3) On toast, spread avocado, layer with tomato and egg. Season lightly with salt and pepper.

LUNCH

FISH CAKES WITH GARLIC GREEN BEANS

Servings: 4

Ingredients

- 3-4 Large Potatoes
- ½ onion or 1 small onion
- 1 Can of Pilchards (400g)
- 1 Egg (Optional)
- ½ cup of flour
- 1-2 garlic cloves, crushed or 1 tsp of pre-dice garlic
- 2 handfuls of green beans
- Salt and pepper to taste
- Lemon juice

Tip:

Pilchards are a great source of omega 3 (which is a healthy fat) and calcium (if you keep the bones in – go ahead and mash the pilchards with the bones).

Instead of making fish cakes, you can keep it as mash.

Method

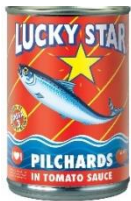

- 1) Rinse and add the potatoes (keep the skin on) in a pot and cover with water. Boil until cooked

- 2) Dice the onion and cook it in a small amount of water (add enough water to prevent the onions from burning). Put aside once cooked

- 3) When the potatoes are cooked, drain the water. In the same pot, add the can of pilchards with the cooked potato and mash. Mix in the onion

- 4) On a clean, dry surface sprinkle the flour. In a separate bowl, beat the egg

- 5) Once the potato-fish mixture is cool enough, make small balls and dip it in the egg mixture, then roll it in the flour (Alternatively: just roll it in the flour)

- 6) In a pan, heat a small amount of cooking oil and fry the fish cakes until golden brown

- 7) Rinse the beans and cut off the end parts. Heat a small amount of cooking oil in a pan, add the garlic and beans and briefly stir-fry for 3 minutes

LENTIL CURRY

Servings: 4

Ingredients

- 2 cups lentils
- 1 onion, diced
- 1 tablespoon vegetable oil
- 4 leaves of spinach
- 1 tablespoon curry powder
- 1 teaspoon salt
- 1 tablespoon minced garlic
- 1 teaspoon ginger
- 1 tablespoon lemon juice
- 1 large tomato, chopped
- 2 large carrots, chopped
- 1 packet tomato puree
- 2 cups brown rice

Tip: This recipe is heart healthy because it uses plant-proteins (lentils) so feel free to use beans, split peas or chickpeas instead. If you use tinned beans, remember to rinse them off first under running water to remove excess salt. ❤️

Method

1) Boil water in 2 pots.

2) When water has boiled, add 2 cups brown rice to one pot

3) In a different pot, add 2 cups of lentils.

4) In a pan, add vegetable oil, onions, spinach, tomato and carrots.

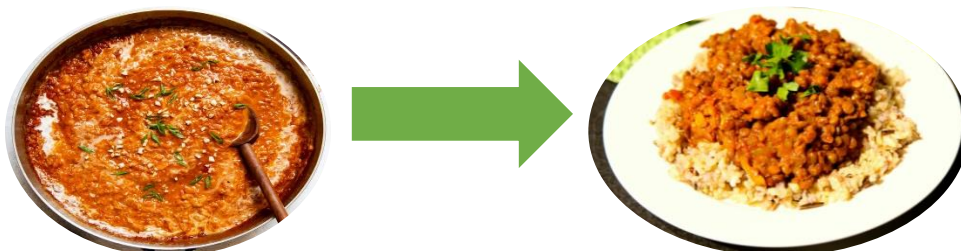

5) Add 1 teaspoon of minced garlic, curry powder, lemon juice, and ginger to pan.

6) Cover mix in pan with water and let it boil for 10 minutes.
